# Call To Alms

D Bb

Take a second out, cos I don't need you only.

D Bb

It is opiate; the senseless feel.

D Bb

Lining innocence down amidst a sorrow -

D Bb

fever; etiquette to what the senses shield!

G F Bb G F Eb

And it seems so old, yet it seems like, still,

G F Bb G F Eb

It's A Call To Alms, yet it's all we have now...

D Bb

Put the fire down, look into the body.

D Bb

A soul so beautiful just strewn around.

D Bb

Like an edifice blackening us wholly.

D Bb

There is new belonging wanting to be found!

G F Bb G F Eb

And it seems so cold, yet it cuts like steel.

G F Bb G F Eb

It's A Call To Alms, yet it's all we have now...

# I Can't Breathe

D

I don't see no light, I just feel the fire burning me inside. Mercury is on the rise.

D

Broken rage of old, swallowing the white. Balance overthrown, compromise a waste of time

I can't see it, it's out of my sight. I don't need it, get out of my mind!

Don't believe it?!? Just wait til I fly

## Imago

F G F G

Want to wish the world away? To draw a line to Everest?

F G F G

Rid the world of sin and saint? Rid the world of all this love?

F G F G

Time is not a fall from grace. The resolute is only faith.

F G F G

But faithfulness is bound by chains that burn. Burn away the sense of all.

G C G/B G C G/B D Em D C G/B D G

I don't need Imago, I just need to come back down. For all my life I've waited for Him.

D G C D G C D Em C

This love fades away. This heart is all a weight. We're left: pure elate... I know!

G C G/B G C G/B D

Em D C G/B D G G C G/B

# Slumberland

Em D C Am C D Em D

My dearest dissects my oblivious mind. The day has been well-spent.

C D Em D G C G B7

Sometimes a cry is in joy and not pain, and I fear that I feel too much.

Em D C Am C D Em D

Give me a taste of exhaustion. I crave for a sight, and a sound, and a drink.

C D Em D G C G B7

My decency rules in the land of ok. It's a shame that that place isn't here.

C D B7 Em D G D Am Em D C D B7 Em D G D Am Em D

This time I am sleeping my dear. Do not try to wake me. This time I am breathing my dear. Do not suffocate me.

Em D C Am C D Em D

Better the shame of not knowing your name than the kind shake of hand by a thief.

C D Em D G C G B7

The twisting of fate marks the bitter mistakes of the artificially depressed.

C D B7 Em D G D Am Em D C D B7 Em D G D Am Em D

# Wall of Sound (Capo 5th)

C G Am G F G Am G

I'll build a wall from which Humpty can fall; on which Amie can sit and read stories of old.

C G Am G F G C

It won't be of wood and it won't be of stone; I'll build this wall out of sound.

C G Am G F G Am G

I've got a brain and I know how to use it; I'll teach them to sing and I'll teach them to play,

C G Am G F G Am

and then we can make sound til the day that we die and harmony echoes around, my

G F G C

love. Harmony echoes around.

C G Am G F G Am G

You got heart and I know that it's broken; the pulse is arranged in the strangest of ways.

C G Am G F G Am G

But we can unite and make regular tempo, and create the rhythm of life, my love.

C G Am G F G Am G

I've got a face and I know how to smile. I know how to run like the wind to your arms.

C G Am G

I believe that it's fate that has brought us together.

F G Am G F G C

I built you this wall; tear it down, my love.

## Soul

Em D Em D Em D Em D Em

Love, what have you done? I believe the all-knowing but I don't know why everyone's dying,

D Em D Em

I'll emit the emotional, given time.

C G/B Am G/B C Em D

I am a liar and you are on fire yet all I require is 'I got Soul'.

C G/B Am G/B C G/B D Em

I am the wire and you are on fire and all I require is 'I got Soul'.

D Em D Em D Em D Em D Em

Love, where have you gone? I commit to release you but I don't know why everyone's dying,

D Em D Am G/B C

I'll omit the emotional, given time.

C G/B Am G/B C G/B D Em

I am a liar and you are on fire yet all I enquire is 'I got Soul'.

C G/B Am G/B C G/B Am G/B

I am the wire and you are on fire and all that I know is you're my heart's desire.

C G/B Am G/B C G/B D E

I'm raising the ocean. I'll cause a commotion and all that I know is that 'I got Soul'.

## Blood

D G D G D G D G

What is Blood, an emptiness of heart? What is Hope, I need it from the start.

D G D G D G D G

We wait in line for security but we are one and all eternally. Cos I can feel it in my heart.

Bm A D G Bm A D

And oh, my, we went too far. We didn't know to be with it.

Bm A D G Bm A D

And I know that you pray to God cos you don't wanna deal with it!

D G D G D G D G

What is Cold? When choices don't impart. Shattered souls that leave before they start to get in

D G D G D G D G

line. Inside of me, I feel responsible for all I see now. From my bones which crumble down.

Bm A D G Bm A D

And oh, my, we went too far. We didn't know to be with it.

Bm A D G Bm A D

And I know that you pray to God cos you don't wanna deal with it!

Bm A D G Bm A D

And oh, my, we went too far. We didn't know to be with it.

Bm A D G Bm A D

And I know that you pray to God cos you don't wanna deal with it!

## The Only One

G D Bm D  
It's over in a moment, a blinding flash of brilliance, a flash so insecure.

G D Bm D  
We keep it safe and shackled, and hold it like a prisoner. Lamented and assured.

G D Bm D  
Assured of brighter futures; assured of greater things ahead. Eventuality

G D Bm G  
is nothing but a fiction, nothing but anomaly, so give it air to breathe. Just give it air now!

D D/F# G G A Bm D D/F# G G A D  
Cos you won't be around forever, and you won't be around til Kingdom Come. So just live here in this moment - The Only One.

G D Bm D  
And we wait for love, and we break for love and find the only one is opening a door.

G D Bm G  
As we fake for love, we erase the loving of the only one who'll catch us when we fall.

D D/F# G G A Bm D D/F# G G A D  
Cos we won't be around forever, and we won't be around til Kingdom Come. So we live here in this moment - The Only One.

D D/F# G G A Bm D D/F# G G A D  
And when we understand this notion that everything that's ever been will go. Our impermanence is only. The Only One.

G D Bm D G  
They won't like it, that you're The Only One, at all.

D D/F# G G A Bm D D/F# G G A D  
Cos I won't be around forever, yeah you won't be around til Kingdom Come. So just live here in this moment - The Only One.

D D/F# G G A Bm D D/F# G G A D  
And when we understand this notion that everything that's ever been will go. Our impermanence is all we have.

## Proud

F C G F C G

The quiet came to aid our thought, we focused on the emptiness.

F C G F Am G

And you came like you had no choice, and you screamed til you had no voice.

F C G F C G

Why the sigh? Why the tears? Why the frown?

F C G F Am G

You fell as you tried to climb; and you grazed yourself, yeah!

F C Am G

In the fire... In the fire... In the fire...

F C G F C G

One last chance to pacify; another glance to see insight.

F C G F Am G

Yeah, you gathered wood to make the spark and we held our hands to feel the warmth!

F C G F C Am G

So release the fire, betray the night - come on we're trying to save your life in the fire.

F C G

You make us Proud! You make us Proud! You make us Proud!

F C G F C G

You wonder why you're changing. And you wonder why we're changing.

F C G F

You wonder why it's changing. We wonder...

## Circularity

C D C D  
I want a notion, contented by my own belief. A sign of erosion allows me to forget my fears,  
C D G/B C G  
'Cos while they're here in me I know this circularity comes up, aloud, at once,  
G/B C D Em C  
and I know it's all because I don't want to know your name.  
C D  
I believe in clarity, a simple singularity engaging. Where everyone believes that everything perceives all.  
C D  
A radiance outside of me, a chance to see that all of this inflaming  
is borne of all a blurred and discontented soul.  
C D  
Now, it seems a kind of elation is transcending me to perfect bliss,  
C D  
but there's a kind of frustration that I will never know this everything.  
Em A C D  
Yeah, I know that I'm 'only', but I just can't perceive myself.  
Em A C D  
There's a sense of a longing; that we need circularity.  
Em A C D  
Yeah, we know that we're lonely, but we're losing our sense of 'self'.  
Em A D  
There's a sense of foreboding that we need circularity.  
G/B C G G/B C G  
Yeah, I know it's all too late and I fear that we've fallen from grace.  
C D  
But there's a kind of elation that's transcending us to perfect bliss.  
C D  
Yet there's a sense of frustration that's corroding everything!  
Em A C D  
Yeah, I know that I'm 'only', but I just can't perceive myself.  
Em A C D  
There's a sense of a longing; that we need circularity.  
Em A C D  
Yeah, we know that we're lonely, but we're losing our sense of 'self'.  
Em A D  
There's a sense of foreboding that we need circularity.

I don't know what I want to know but I know I can breathe for the first time.

## Answers

G A Bm A  
And I'll wait 'til Heaven's stars can tell me where you are. And I'll wait 'til all the skies point to where you lie.

G A Bm A  
And the oceans drift apart to lead me to your heart. And golden autumn leaves fall into our dreams.

G A Bm A  
Yeah, I wish to see you grow into fire, into soul! Yet I'm standing in these shoes just to warm them up for you.

G A Bm A  
Because you can see it real, and you can see it clear. And I can hold my heart on offer from my palm.

G A Bm A  
Can you give me Answers, please?

G A Bm A  
With Faith and Science fused and nothing is confused. Our halos are not fair and our wings are not quite there.

G A Bm A  
But there's something up ahead where our journey starts to end. There's a fire burning bright.

G  
There's a star that shines so white.

A Bm A G  
Where the doves of peace fly, and all our Answers lie. And it's written in the skies that everything's alright!

G Bm D A  
Can you give me Answers, please? Yeah!

G A Bm A  
And I'll wait 'til Heaven's scars can tell me where you are. And I'll wait 'til all the skies can point to where you lie.

G A Bm A  
And the oceans drift apart to lead me to your heart. And the golden autumn leaves fall into our dreams.

G A Bm A G  
We'll get some answers, soon...
